

Bacharach 19-7075 Leakator Jr.

The Leakator Jr. is a low maintenance, easy-to-use portable combustible gas leak detector that is capable of pinpointing large and small leaks quickly with no calibration required and only 6 inches in length with a 12-inch flexible probe.

The Leakator Jr. is ideal for pinpointing combustible gas leaks; testing appliances in residential, commercial and industrial applications; inspecting valves, regulators, and meters on gas equipment; and surveying gas pipelines.

Features

- Compact Design: Fits in the palm of your hand (6"L x 2"W x 1.5"D)
- Visual Indicator: 1 LED (Variable Frequency)
- Audible Indicator: Loud audible ticking rate
- 2 Sensitivity Levels: Aids in pinpointing both large and small leaks
- Operational Status LED: Provides visual indication of instrument's operational state
- Long Battery Life: Four AA batteries provide 14 hours of operation
- Lower Power Metal Oxide Sensor: Plug-in sensor
- 12 Inch Flexible Probe: For taking measurements in hard-to-reach locations
- Tough ABS Plastic Housing: Durable and rugged
- UL Classified for Class I, Div. 1 groups A, B, C & D hazardous locations
- 2 Year Warranty: On instrument
